

REMARKS

By this Amendment, all of the features of independent claim 1 are being included in the Brief Summary of the Invention portion of the specification and the limitation that "the structure is partially transparent in at least one part of the solar spectrum from 350 nm to 2000 nm" is also being added to the detailed description, as required in the Ex Parte Quayle Office Action.

A supplemental Information Disclosure Statement is submitted herewith, along with a copy of the cited German publication and an English translation thereof. To ensure consideration of the Supplemental IDS, a Request for Continued Examination and the related fee are also being concurrently filed.

The allowance of claims 1-33 is gratefully acknowledged. Since this Amendment cures the only outstanding objection, this application is believed to be in condition for allowance and such action is respectfully requested.

Respectfully submitted,

Jeff Rothenberg, Reg. No. 26,429
Attorney for Applicant
